ABOUT US • "VALUABLE ORGANIZATION" SINCE 1992

CORPORATE HISTORY & STRENGTH

Orka Ev Dışı Tüketim Maddeleri Gıda İnşaat Sanayi ve Ticaret A.Ş. began its commercial journey in **1992** as a wholesale and retail food distribution company. Driven by customer satisfaction and a robust supply chain infrastructure, our company expanded into the Food Service (HoReCa / EDT) industry in the early 2000s and subsequently became one of Turkey's premier international **Ship Supply & Maritime Services** organizations.

Operating from our **3,500 m² indoor logistics facility in Ümraniye, Istanbul**, equipped with high-capacity cold storage rooms (**-18°C / +4°C**), a dedicated **bonded warehouse** for imported goods requested by foreign-flagged vessels, **100+ specialist personnel**, and a modern refrigerated vehicle fleet, we supply over **16,000** provisions, cabin, deck, and engine store items 24/7.

As proud members of **ISSA, IMPA, ShipServ (TradeNet ID: 301937), TURSSA, MESPAS**, and the **IMEAK Chamber of Shipping**, we serve global fleets at international maritime standards.

OUR MISSION

To deliver the right product, at the right time, and at the most competitive prices to all vessels operating in national and international maritime transport—without compromising food safety (ISO 22000), quality (ISO 9001), or cold-chain integrity.

OUR VISION

To be the world's first-choice ship chandler across the Turkish Straits and all Turkish ports through high stock availability, rapid transit operation capability, and technology-driven logistics.

24/7 MARITIME & SHIP SUPPLY SERVICES

TRANSIT • PORT • LOGISTICS

Transit Delivery (Istanbul & Çanakkale)

We provide 24/7 rapid, non-stop delivery of provisions, bonded stores, and technical spares via high-speed supply launches to vessels transiting the Bosphorus and Dardanelles Straits or at anchorage without any delay.

Port & Shipyard Delivery

We deliver certified, customs-cleared provisions and technical equipment with full cold-chain protection directly to vessels berthed at all ports and shipyards across the Marmara, Aegean, Mediterranean, and Black Sea regions.

Operations, Bonded & Cold Chain

We utilize our dedicated bonded warehouse stocks to fulfill special imported food demands of international crews, transporting all fresh, frozen, and dry goods via our own dual-temperature refrigerated truck fleet.

3,500 M² FACILITY & COLD ROOMS
-18°C deep-freeze storage, +4°C chilled rooms, and dry provisions & technical stores logistics center.

BONDED WAREHOUSE
Immediate stock availability for imported meats, cheeses, ethnic sauces, and specialty crew provisions.

REFRIGERATED FLEET
Unbroken cold-chain logistics with our own dual-regime (-18°C / +4°C) refrigerated trucks and vans.

FAST CUSTOMS & AGENCY
Zero-delay customs clearance and port entry procedures handled by our experienced maritime operations team.
